RICHES HERE ON EARTH MINOR Happenings of Interest in the Gar-

Mountains of Mineral Producing Ores in Montana and Idaho

DOINGS IN CASTLE DISTRICT

Developments of the Cumberland and Other Mines In the Coeur d'Alenes A New Company Formed.

From the Castle Tribune. At the Cumberland in the last 10 days the force working under ground has been augmented. On the 700-foot level a drift is being extended as rapidly as possible toward the ere body. It has reached a distance of 75 feet from the station. On the 550-foot level a raise has been started in the fine solid ore body there disclosed. It is the intention to continue it to the 500foot level. The raise some time ago began from this level and extended upward along the foot wall of the vein has now reached a height of 275 feet. It will be continued to the surface. Afterwards, at short intervals, this immense ore shoot will be crossent to determine its width. When that is done, the lucky holders of the stock of this company will for

the first time be able to obtain a fair knowledge of the extent of the ore body disclosed to a depth of 700 feet of this enormous deposit. When this stope reached a distance of 250 feet from where it was begun, a drift was run seventy-three and a half feet to connect with the station on the 250-foot level of the old shaft. The whole distance, it was driven through a continuous mass of high grade hard carbonates. In the few instances wherever this ore body has been prospected, the same results have been obtained.

The pump brought from the Bondholder

last week is now in place on the 500 foot level. Its capacity is about 400 gallons One of the chief owners of the Legal

Tender, V. J. McPherson, was in town the fore part of the week. He expects that work will shortly be resumed in that mine. The ore disclosures in that property are exceedingly fine. With little labor a large amount of ore is capable of being obtained for shipment.
The Judge has lain idle for nearly two

years. The good news comes from White Sulphur Springs, where the chief owners reside, that work is to be commenced on it at an early day. On this mine, for a depth of about 250 feet, an ore shoot has been followed. It is composed of exceed: ingly high grade carbonates. By miners, this property is said to possess the finest showing of mineral outside of the Cumberland to be seen in the district.

IN THE COEUR D'ALENES.

Times Good Notwithstanding the Tempo

rary Shut Down of the Mines. Notwithstanding the practical suspen-sion of operations in the Tiger, Poorman. Gem, Frisco, Union, Granite and Custer mines, on Canyou and Nine-Mile creeks, in the immediate vicinity of Wallace, there are still many men employed in those mines doing development work and guard-ing the property, says the Wallace Press. In adjacent properties, too, the force employed swells the number. There are no less than 200 men on the pay roll, the great majority of whom are married. These will be kept employed regularly. From the mines enumerated nearly 1,000 men have been discharged. Add to these those discharged at Wardner, and we find fully 1,5000 men thrown out of employment. The situation, however, is not bad as some are trying to make out, for when the married man can find employment in a crisis like the one at hand the heavens are not going to fall. The winter is nearly over, and with the coming of spring there will be many new chances for employment, contract, etc. There is a great field in the Coeur d'Alenes for the independent miner, either to prospect or dig life, if there is sufficient intellect to

NEW MINING COMPANY.

Some Wonderfully Rich Properties on Rapid River.

The Rapid River Mining company was incorporated Saturday with a capital of \$1,000,000, says the Spokane Review. The stock is non-assessable and consists of 200,000 shares at \$5 a share par value. The officers of the Rapid River company are: B. C. Van Houten, president: George M. Dickinson of Idaho, vice president: A. C. Edwards, secretary; and Mrs. M. J. Me-

This company's mines consist of three claims on the Rapid river, in Idaho. The ledge of ore is 4,500 feet in length, and ranges from 3 to 15 feet in width and is composed of slate and porphyry. The ledge crops out of the ground in some places to the extent of four feet and is the richest strike of any mine in that part of the country. Three experts have at different times examined these mines and estimate \$190,000 worth of ore in sight, and certificas s have been made that the ore goes \$21,00 This is wonder-ful when we consider that \$6 to the ton is considered good. The company intend to place in operation a 10-stamp mill at once. The Rapid River company certainly have bright prospects ahead.

Struck Good Rock.

From the Deer Lodge Picket. Charley Goedke, Henry Renneberg and Horace S. Davis have made a strike of some fine rock in the Lady Gay mine at Grove creek and are in high spirits. The owners will have an assay made of the rock soon and we will give the result to our readers. Mr. Goedke took a sample of the ore to Billings Monday.

In British Columbia.

Superintendent Robinson reports the south crosscut from the Grizzly tunnel in 20 feet, with indications that the ledge is not far distant. He also reports that the face of the south drift from the Dandy crosscut tunnel is in solid ore and that property never looking better. The aver-age progress was made during the week in Silver King tunnel, and it is now in a total of 700 feet.

J. E. Boss has returned to Spokane from

Montreal, where he succeeded in placing the Silver Queen, the south extension of the Kootenay Bonanza, on Toad mountain. The new company is known as the Silver Queen Mining company, and its stockholders are among the solid men of Canada's greatest commercial city.

Another Rich Strike.

Boise City, Idaho, Feb. 2.—Texas Angel of Halley received a telegram here yester day that a big strike has been made in the Cyclops mine. It is now a settled fact tast the Cyclops is located on the same vein as the Red Cloud, which is a large

den City. pecial to the Standard.

MISSOULA. Feb. 2.—During January J. W. Lister sold 735 STANDARDS and D. J. Cavanah sold 184. A. B. Cook is in Helena.

The city council failed to meet last night, as five of the aldermen were out of the city.

Jim Bates is arranging for another prize

fight, to take place in about two weeks.

If he gets up a few more entertainments as good as the last one, the sports of the city will again feel the confidence in pugilistic affairs which they lost by being ooled on a number of contests between mismatched men and men who want to be prize fighters, but are not.

J. J. Shinnich, deputy assessor, returned last night from his trip to Bozeman, Butte and other towns.

The managers of the Northern Pacific, Montana & Idaho Placer Mining company expect to commence work on the property of the company about the middle of next month. Everything is in readiness and all that delays is the snow and frost.

This is one of the liveliest weeks socially of the season. Last night Mr. and Mrs. C. H. McLeod gave a large and very pleas-ant card party. To-night Mr. Nixon's birthday will be celebrated by a number of bis friends at his home in the Realty block. To-morrow night the Gate City club will probably give a musical and lit-erary reception. Dr. and Mrs. Mills have issued invitations for a medley party for Miss West on Thursday evening. The Married People's Dancing club will give a party at the K. of P. hall on Friday night. On Saturday night nearly every-body will attend the "Devil's Auction" at the opera house. These affairs, with the meetings of the various whist clubs, will keep society people busy.

The first issue of the Sunday Review, which is announced for next Sunday morning, is awaited with considerable in terest. It will be devoted to local society, sporting and railroad news, and will conain also letters from Butte, Anaconda, Helena and, as soon as arrangements are completed, from New York, Washington

and some European points.

Tom Cooney and C. W. Van Horn, Northern Pacific land attorneys, returned to Helena to-day, after finishing the case of Dierman vs. the Northern Pacific, before the local land office.

FIRE DEPARTMENT MEETING.

Arrangements for the Grand Ball to be Given Other Matters.

BUTTE, Feb. 2.—A regular meeting of the fire department was held this evening. Thompson Campbell cailed the meeting to order, but being indisposed gave his seat to George Lapp. The report of the committee on arrangements for the ball to be given Feb. 22 was read, and the sub-com-mittees appointed for that occasion are: Finance—H. G. Valiton, Thompson Campbell, John Bordeaux, Rod Leggatt

Campbell, John Bordeaux, Rod Leggatt and J. A. Dingevon.
Floor director—Phil Tucker.
Assistant floor directors—Thompson Campbell, Julius Jacobs, Thomas Burns, Harry Cairns, John Stean, James McLennan, J. W. Murphy and Frank Murray.
Music, hall and decorations—P. Tucker, J. Jacobs, James Kreiger, W. G. Schatzlein, John Sloan.
Chairman Labo of the general commit-

J. Jacobs, James Kreiger, W. G. Schatzlein, John Sloan.

Chairman Lapp of 'the general committee reported that invitations had been sent to the fire departments throughout the state, as well as to Pocatello and Ogden. No response has yet been received, but a large delegation from these different places were expected.

The new members elected were F. A. Girard, Alf Jackson, Ed Sloan, Dennis McCarthy, Stephen McCarthy, Emmet Harris, P. J. Norting and D. D. Ryan.

The report of Fire Marshal Murray showed five fire alarms had been responded to during January. The loss of dwellings and property was \$1,055 and insured for \$615.

The application to the relief fund for \$48 to pay doctor and druggists' bills incurred by members of the paid department since last meeting was disallowed.

To-Day's Musicale.

BUTTE, Feb. 2.—To-morrow afternoon the Venetian Ladies Mandolin' club will give another concert at the rooms of the Silver Bow club, to-morrow being "ladies' day," The concert will last from 2:30 until 6

o clock.

Terrible Revenge of an Usher. The theater usher disliked the man. He was storing up some fancied grievance and he was resolved to get even in some way.

He puzzled his head to invent some novel and effective method of avenging himself, but decided on none until he saw the man enter the theater one night with

a pretty young woman.

He hurried forward, took the checks, bowed courteously and said: "This way, please," and conducted him to two of the

please," and conducted him to two of the best seats in the house. Then he went to the rear of the audi-torium and chuckled softly to himself while the pretty young woman was whis-

pering:
"These are slpendid seats, Mr. Jenkyns."
"Aren't they?" he returned. "I told the
man in the box office to give me the best
he could, and he knows the ones I like."
It was three or four minutes later that
the usher came down and said:
"Let me see your checks, please."
They were produced.

They were produced. "Seven rows back in the center of the ction," said the usher coldly.
"But these are the ones that were given

to me," protested the man.
"Who gave them to you?" asked the
usher in the same chily way.
"Why, an usher. I didn't notice—"
"Of course not," said the usher. "But
this gentleman has the checks for these
seats."

seats."

The pretty young woman said, "O, dear," as she began to gather up her wraps and her escort was red in the face as they moved back seven rows and heard one or two men say: "What nerve that man had! Funny how people will try to take seats they're not entitled to." etc.

But the usher—the cold-blooded, heartless usher—was avenged.—Chicago Globe,

United States Marshal Wounded, Parts, Texas, Feb. 2.—News from Brun-ertown, in the Creek nation, states that Esna Gordon and Casey Bruner were killed by deputy United States marshals. and one deputy marshal was seriously wounded in the fight. The officers sur-rounded a number of outlaws at Bruner's house with the above result.

All members of the Butchers' union patronizing Chinese in any form on or after Feb. 1 will be fined \$5. By order of J. H. WARREN, President. D. C. SMITH, Secretary.

STOCKS AND BONDS.

Ups and Downs in Market Values on the

New YORK, Feb. 2.—Dealings in stock market continue to show decreased vol-ume. Selling was free in forenoon, but later covering by shorts became pro-nounced and decidedly strong temper developed in final trading. Distillers showed wide fluctuations, suddenly advancing 2 per cent. in the morning and as quickly falling off one. This did not affect the remainder of the market and sugar rose 2 per cent. Western Union showed much strength and is up 2 per cent. to-night. Distillers, 11/4.

The Best Annual. From the Bozeman Avant Courier.

The Anaeonda STANDARD Almanac is a most valuable pamphlet, neatly and artistically made up. It is the best annual we tically made up. It is the best annual we have seen issued by any newspaper in Montana, and will answer every purpose of a reference book when one wishes to inform himself of Montana's condition and stage of progress at the close of 1891. It contains in accurate and convenient form the political, industrial, social, religious, labor, educational and sporting statistics of Montana, in addition to a variety of general statistics and much other good matter.

THE verdict of the people is that the STANDARD is Montana's best newspaper. Try it for a month.

The Gelebrated French Gure.
